## Madison County Public Health

---

Jacqueline Howard BSN, RN  
Madison County Public Health Nurse Administrator

**April 15, 2010**

Dear Parents,

This letter is to inform parents that Madison County Public Health has been able to gain access to the Tdap vaccination. This vaccination is the routine Tetanus, Diphtheria, and Pertussis vaccine for all children 11 and older, who have not had the regular booster, around the age of 11. Please call our office and ask for immunization information, or call your regular doctor's office to inquire whether or not your child has had the vaccine. Our office number is 1-515-462-9051. The clinic date set for April 29, 2010.

All children in this school district are eligible for the vaccine **FREE OF CHARGE** regardless of insurance status.

If you missed the first letter on this and the need for a count, it is not too late. Just fill out the other side of this form and return it to the school nurse by Tuesday April 27, 2010, I will give shots to those whom already filled out the form and go until I run out and then will make another time at the school. This is the consent form for the shot so all parents need to fill out and sign if you want your child to receive the shot, even if you returned the other form, that form was just informational only and to get a count to order the vaccine.

If you have any questions or concerns please call Jackie at 515-462-9051 and I will be glad to answer any of your questions.

Thanks You

Jacqueline Howard, Administrator  
Madison County Public Health
